Kong: The Animated Series © 2001 BKN International AG/Ellipsanime/M6

When the original King Kong was shot down long ago, brilliant scientist Dr. Lorna Jenkins was at his side. Years later, Dr. Jenkins used Kong's DNA and a small amount of human DNA from her grandson, Jason Jenkins, to create a powerful new Kong. After moving to the mysterious hidden Kong Island, Dr. Jenkins also created a Cyber-Link, enabling Jason and Kong to merge into a single, powerful force – Mega-Kong!

Kong, Jason, jungle girl Lua, fun-loving Tann and wise Dr. Jenkins take on power-hungry scientists, ferocious prehistoric creatures and incredible magical beings in order to protect their unique island home.
