

SUPER MONSTERS

MONSTER PETS™

At a First Night celebration with their friends and families, the Super Monsters are surprised and amazed when Lobo makes a monster match with a slow-mo-ster named Molasses.

Cleo, Drac and Zoe soon find their furever friends, too - and their new monster pets mean new monster powers for each of the kiddos.

Frankie is thrilled for his friends, but he's also really disappointed to be the only Super Monster who doesn't have a furever friend of his own. Fortunately, the Monster Moon has more than enough magic for every Super Monster, and Frankie is thrilled to discover that there's a very special pet who's been waiting just for him.
