

Pocket Dragon Adventures

Pocket Dragon Adventures © 1997 BKN International AG

There's another kind of dragon out there. More mischievous than magic, more fun loving than fearsome. Dragons that are fonder of cookies than treasure. Pocket Dragons! Small enough to fit into a pocket, but big enough to get themselves into all kinds of trouble.

The Pocket Dragons live with the wizard, in a big cluttered house full of spell books and magical knick-knacks. Outside, there is a world waiting to be explored, full of fun, excitement and danger, a world full of magic and adventure.
